Hi Bob,

I had another mtg and had to sign off the IAG call at 11:00.

Doug P's PFAS presentation was a little muffled and difficult to hear during some of the details.

I think we need another separate meeting in the next week or two to review and discuss the nomination of the PFAS and 1,4 dioxane as an OU.

I know you are installing treatment units ... perhaps this work could be considered a TCRA?
